RE: 2023 Annual Submittal
HD Ranch
Solano County, California

Dear Mr. Gamon:

Attached is the 2023 Annual Report for the HD Ranch in Solano County, California. The Annual Report fulfills the monitoring and reporting obligations per the Monitoring and Reporting Program MRP, included in *Reissued Waste Discharge Requirements General Order No. R5-2013-0122 for Existing Milk Cow Dairies* (Reissued General Order) and is organized to follow the specific requirements contained therein.

Nutrient management activities are conducted by Dellavalle Laboratory under the direct supervision of Certified Crop Advisor Danyal Kasapligil. Quarterly groundwater monitoring and reporting are conducted by VESTRA under the direct supervision of Professional Geologist John Andrews (P.G. No. 4269). Groundwater at the site is monitored via eight wells as required by Solano County. Monitoring reports are submitted quarterly to the Regional Water Quality Control Board (RWQCB) and Solano County per requirements contained in the *Large Confined Animal Facility Standards* (Solano County Code, Chapter 27, Article IV, Section 27-400).

PRIORITY REPORTING OF SIGNIFICANT EVENTS

The General Order requires dischargers to report any non-compliance that endangers human health or the environment, or any non-compliance with Prohibitions A.1 through A.13 contained in the General Order, within 24 hours of becoming aware of its occurrence. ***No discharges occurred during the reporting period.***

ANNUAL REPORTING

By July 1 of each year, HD Ranch is required to submit an Annual Report containing information on facility operations outlined in the MRP for the period from 1 January through 31 December of the previous year. The report is required to be completed, in part, on an Annual Report form provided by the Executive Officer (included as Exhibit 2) and shall contain the following information:
